Feestbazaar, Enkhuizen
 - Varied job in the warehouse of the online party store Feestbazaar. The work ranges from order picking to packing packages.

Profile

In addition to a passion for physics and programming, I also have a passion for sports. Since 2016, I have been jumping trampolines at top sports level for many years, which has resulted in prizes at various National Championships. I trained for this 6 times a week and this was a tough combination with school at atheneum level. In order to continue with this combination, I had to work hard and I gained a lot of discipline and learned to persevere. By being absent from school a lot due to sports, I have also learned to work independently, but my ability to collaborate has not lagged behind. In 2020 I chose to do trampoline jumping less and focus on my studies and future.
